

ULTRAREZ - PEG (eg 102)

ULTRAREZ-PEG (EG 102) is a pale, thermoplastic ester resin derived from Pentaerithritol and rosin.

ULTRAREZ – PEG (EG 102) offers excellent advantages as the resin for road marking & other paints, as a tackifying resin in rubber adhesives, hot melt adhesives and special metal protective coatings.

SPECIFICATIONS

Appearance	Pale yellow lumps
Melting point (capillary method)	98 + 5 deg. C.
Acid Value	< 25.
Colour Gardener scale	6 + 1

Outstanding Characteristics

It is soluble in esters, ketones, higher alcohols, glycol ethers, aliphatic, aromatic and chlorinated hydrocarbons, Insoluble in ethanol and water.
